

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# TWENTIETH ANNUAL REPORT OF THE SUPERINTENDENT OF DOCUMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 1914.

GOVERNMENT PRINTING OFFICE,  
OFFICE OF SUPERINTENDENT OF DOCUMENTS,  
*October 1, 1914.*

SIR: In accordance with the provisions of section 61 of the general printing act, approved January 12, 1895, I have the honor to submit the Twentieth Annual Report of the Superintendent of Documents, being for the fiscal year ended June 30, 1914.

The past year has shown the most rapid growth in all branches of work since the organization of the office. There is no reason to doubt that the work will continue to grow as the people become better acquainted with the fact that Government investigations along all lines are printed and made available at a nominal cost. The curtailing of the free distribution by a number of the departments and the placing of the publications on a sales basis by this office have been large factors in the increase in the work. It is evident that the departments are beginning to realize that the best results are not obtained through the free distribution of their publications, and that the charging of a nominal sum serves to place copies in the hands of those who are actually interested in their contents.

The best evidence that this office is becoming better known and increasing in popularity, and that it is fulfilling the functions of a general information bureau, is shown by the increase in the number of letters received for the purchase of publications, and asking for information, as per the following statement:

	Letters.	Amount.
<b>1911-12:</b>		
Letters containing remittances.....	84,192	\$115,630.48
Letters of inquiry.....	67,749	
Total.....	151,941	
<b>1912-13:</b>		
Letters containing remittances.....	103,256	116,786.42
Letters of inquiry.....	70,836	
Total.....	174,092	
<b>1913-14:</b>		
Letters containing remittances.....	141,932	140,735.87
Letters of inquiry.....	87,424	
Total.....	229,356	

The above statement shows that there has been an increase of 51 per cent of letters received in 1914 over 1912, and about 22 per cent increase in cash receipts.

## DISTRIBUTION OF DEPARTMENTAL PUBLICATIONS.

This office distributed for the departments, during 1914, 39,136,659 publications, which is an increase of about 16 per cent over the previous year.

The work of wrapping, addressing, and mailing departmental publications continues to show a decided increase, notwithstanding the fact that a number of the departments have curtailed the gratuitous distribution. This increase is due, in a large degree, to certain changes made by some of the departments in the method of issuing their publications and also to the increase in the membership of the House of Representatives.

There have been considerable opposition to and criticism of the plan of centralizing the distribution in the Office of the Superintendent of Documents, and, while I acknowledge that some of the features of the existing law might be changed so as to improve the system, I am decidedly of the opinion that it would not be to the best interests of the Government to return to the old method of each department distributing its own publications.

It is certain that no other place than this office could be logically or consistently considered a better location. Besides the great saving of work in handling all the books in one place, the installation of the tube system connecting this office with the post office will certainly secure a dispatch of the mails which could not be obtained if the work were done at the various departments.

I am willing to admit that the departments might very well retain a small supply of their current publications to take care of special orders to which they want to give direct attention, but with this exception the work can be better handled from a central distributing agency, especially one which is so closely located to where the publications are printed and to where they are mailed.

The scheme of centralization is a new one, and should not be condemned nor abolished before being given a fair trial; for I earnestly believe that with the cooperation of the various publishing offices such a central agency will prove to be the best method of handling the distribution of Government publications.

Since the distribution of documents has been turned over to this office it has been found that in previous years some of the departments in a number of cases have ordered a supply of their publications far in excess of possible demand, which has resulted in valuable additional storage space being required for publications that in the end are condemned and sold as waste paper.

In cases where we have found that there was an excessive order made it has been brought to the attention of the departments, and in nearly every instance they have gladly accepted our suggestion and reduced the number to be printed. This is not mentioned as a criticism of the departments, but to show how a central agency may be used to effect economies.

## LIBRARIES.

Considerable attention has been given to assisting the libraries, and it is noted that there is a very noticeable increase in the library demand for publications, which shows that our effort to popularize Government publications is bringing about good results.

There are on record the names of over 10,000 libraries which have signified their interest in public documents, and when it is considered that less than 500 of these are regular Government depositories, it can be readily seen that there remains a very large field to be supplied. The fact that we do not receive any regular supply of many of the current publications for distribution to miscellaneous libraries makes it necessary for us to refer the larger number of library requests to the issuing offices.

We are daily in receipt of requests for a free list showing publications available for distribution, but it has not been found practicable to issue such a list because of the limited number of copies and the great variety of books we have in stock, outside of the consignment stock, amounting to about 2,300,000 copies. In view of this fact, if the libraries interested in completing their sets of special publications would avail themselves of the "library want" blanks in submitting their requests, it would enable us to file in convenient form those requests which could not be filled at the time of their receipt, so that if copies of the desired publications were afterwards received in stock the library wants could then be completed.

#### AMERICAN LIBRARY ASSOCIATION.

The American Library Association Conference which was held here in May devoted one of its sessions to the public documents question, and it was especially gratifying to note the expressed appreciation by the members of the work done and interest shown by this office for the libraries.

#### ACCUMULATION OF PUBLICATIONS.

The task of handling the returns of documents from Government departments and the libraries of the country has been the most difficult proposition of any with which we have had to contend. Only those who have handled this work can comprehend what it really means to arrange and assort this tremendous mass of about 500,000 old publications in cramped quarters and with mostly untrained people. Notwithstanding the handicap under which we have labored, however, considerable progress has been made and conditions have greatly improved, and we hope soon for satisfactory relief.

#### DOCUMENT CATALOGUES AND INDEXES.

The Document Catalogue for the sixty-first Congress, July 1, 1909, to June 30, 1911, was published during the year. The Document Catalogue for the Sixty-second Congress is well under way, and it will be ready for printing in the early part of 1915.

During the year we also printed and distributed Document Indexes for the Sixty-second Congress, third session, and the Sixty-third Congress, first session. The Document Index for the Sixty-third Congress, second session, is being kept up to date, so that it will be ready to be printed shortly after the adjournment of Congress.

The Monthly Catalogue, which lists all publications printed during each month, showing the prices and how obtainable, has never failed to be printed and mailed during the month following its date.

Annual reports, separate (paper)—Contd.				General publications (paper)—Continued.			
Clays and clay products at Paris Exposition, 1900.....	2	\$0.10	\$0.20	Logarithms and factors for converting latitude and departures in feet to seconds, etc., 1913.	1	\$0.10	\$0.10
Production of coal, 1898.....	1	.25	.25	Coordinates for projection of maps, etc.....	1	.05	.05
New method of measuring heights by means of barometer.....	1	.75	.75	Preliminary report on Cape Nome gold region, Alaska.....	2	.15	.30
Geological reconnaissance across Idaho.....	2	.25	.50	Suggestions to authors of papers submitted for publication by Geological Survey, with directions to typewriter operators, 1909.....	8	.05	.40
Hydrography of American isthmus.	1	.30	.30	Bulletins (paper):			
Status of mesozoic floras of United States, first paper.	1	.75	.75	No. 1.....	4	.10	.40
Memorandum on mineral resources of Philippine Islands.....	2	.10	.20	No. 3.....	2	.05	.10
Report on geology of Philippine Islands.....	1	.35	.35	No. 4.....	2	.05	.10
Preliminary report on geology of common roads of United States.....	1	.10	.10	No. 5.....	4	.20	.80
Further contributions to geology of the Sierra Nevada.	1	.50	.50	No. 5 (cloth).....	1	.30	.30
Public lands and their water supply.	2	.25	.50	No. 6.....	1	.05	.05
General publications (paper):				No. 7.....	1	.10	.10
Maps and descriptions of routes of explorations in Alaska in 1898 (cloth).....	14	.50	7.00	No. 9.....	2	.05	.10
Geology and mineral resources of portion of Copper River district, Alaska.....	2	.40	.80	No. 11.....	1	.05	.05
Reconnoissances in Cape Nome and Norton Bay regions, Alaska, 1900.	3	.50	1.50	No. 12.....	1	.05	.05
Map of Alaska showing gold-bearing rocks, with descriptive text, etc., 1898.....	7	.15	1.05	No. 13.....	1	.10	.10
Alaska, from maps of Geological Survey, coast line from Coast and Geodetic Survey charts, index map showing areas covered by topographic maps, with inset (Aleutian Islands).....	10	.10	1.00	No. 14.....	1	.15	.15
Service bulletin, July, 1913: Personnel and Field Assignments.....	1	.05	.05	No. 15.....	2	.05	.10
Five-place logarithms of national numbers and circular functions expressed in arc and time.....	1	.10	.10	No. 16.....	5	.05	.25

## TWENTY-FIRST ANNUAL REPORT OF THE SUPERINTENDENT OF DOCUMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 1915.

---

GOVERNMENT PRINTING OFFICE,  
OFFICE OF SUPERINTENDENT OF DOCUMENTS,  
*October 1, 1915.*

SIR: In accordance with the provisions of section 61 of the general printing act approved January 12, 1895, I have the honor to submit the Twenty-first Annual Report of the Superintendent of Documents, being for the fiscal year ended June 30, 1915.

The increase in governmental business for the fiscal year ended June 30, 1915, like that of the previous year, has demonstrated that the public is awakening to the fact that the governmental bureaus are not activities foreign to the scientific investigations of the country, but are accessories and great aids to its development. A glance at the appended statements of the year's business, compared with previous ones, plainly shows the increasing demand for Government publications and that the public has begun to realize it has a strong ally in almost any field of work in which it is engaged.

When this office was established in 1895 the various departments and bureaus misapprehended the attitude and purpose of Congress in establishing a sales office for public documents. It is gratifying to be able to report that a change has taken place and with scarcely an exception the selling of Government publications is approved, and we are now receiving the most cordial cooperation in our work.

The Departments of Agriculture and Commerce are highly commended for their hearty cooperation in the work and in allowing us to use some of their periodicals as advertising mediums, which has been the means of letting thousands of people know what the Government is doing to assist them.

If the issuing offices would consider the great expense of preparing and publishing their reports they would realize that turning them out from the press is only a preliminary part, and that the public should be made acquainted with their existence and shown how access to them might be had.

Where the departments are inclined toward a free distribution of their publications, I am afraid they are unmindful of the disastrous consequences which such a distribution entails. The limited appropriation for printing makes it impossible for the departments to supply publications free to everyone. Would it not, therefore, be more equitable to place them on a sales basis to be sold by this office, which was designated under the law as the sales department of the Government?

What is needed is more publicity, and the issuing offices are the ones that should do the advertising and thereby keep in close touch with the people whom they are trying to serve.

The Department of Commerce has been following along the lines which we have long advocated, and I am sure they are more than satisfied with the results they have achieved. They have practically discontinued their general free distribution and have entered upon a campaign of advertising and publicity work which has resulted in remarkable increase in the sale of their publications.

My purpose in touching upon this subject is in the hope that it may open the way to the coordination of effort on the part of the issuing offices to increase by greater publicity the efficiency of the Government publications.

#### LIBRARIES.

##### *Statement showing publications sent to depositories.*

During fiscal year 1914-15.....	1, 335, 991
During fiscal year 1913-14.....	1, 311, 206
Increase.....	24, 785

In the past year 2,130 different publications were sent by this office to the 482 depository libraries now on the list. It is doubtful if all the libraries so designated are cataloguing, shelving, and making available this number of publications each year, but unfortunately no means are provided whereby this office can know what use is really being made of them.

We receive many requests from the libraries asking relief from the present burden of caring for so many publications by granting them the privilege of selection instead of being compelled, as now, to receive all that are printed. This selection plan has the sanction of the Joint Committee on Printing, and as the debate on this feature of the printing bill in both Houses of Congress has not developed any opposition, it is my purpose to consider putting the selection plan into operation at as early a date as possible.

The libraries that have been users of our library "Want system" have received thousands of books from the recent assortment of the accumulation of old publications. This system affords a surer method of filling up gaps in their sets and requires but little effort on the part of this office to hold for future consideration their wants when the publications are not in stock at the time of their receipt.

#### CATALOGUES, INDEXES, ETC.

The Document Catalogue for the Sixty-second Congress and the Document Index for the Sixty-third Congress, second session, will be ready for printing before the close of 1915. The Document Index for the Sixty-third Congress, third session, is well under way and will be ready for printing before the convening of the Sixty-fourth Congress in December.

The following publications have been compiled and issued during the fiscal year ended June 30, 1915:

Thirteenth Preliminary Schedule of Volumes, Reports and Documents of Sixty-third Congress, Second Session.

Monthly Catalogue, July, 1914-June, 1915, and Index.

Bulletin 16. Government Book Store, a pamphlet for distribution at the Panama Pacific International Exposition.

Bulletin 17. Outline of Revised Classification for Publications of Interstate Commerce Commission as adopted by the Public Documents Library, December, 1914.

Bulletin 18. Third edition of Author Headings for United States Public Documents as used in Official Catalogues of Superintendent of Documents.

Forty-four Price Lists of United States Government Publications, on various subjects, for sale by Superintendent of Documents (totaling 282,000 copies, of which 274,915 have been distributed).

#### REFERENCE SECTION.

I wish to call attention to the growing use of the "Reference Section" in this office, which is rapidly becoming a clearing house for information concerning public documents, receiving and answering each day many inquiries from Senators, Representatives, the Executive Departments, corporations, and private individuals, thus rendering great aid to the stock and sales departments in identifying publications called for and in executing orders.

#### THE COUPON SYSTEM.

The coupon system, greatly to the regret of this office, was suspended during the year upon the question of its legality, but, after a most earnest and persistent effort by this office, you decided that the system should be reinstated, which has proven to be of great benefit and convenience to the office and to all purchasers of Government publications. The system was reestablished February 6, 1915, and up to June 30 this office issued 37,115 coupons.

#### DISTRIBUTION OF DEPARTMENTAL PUBLICATIONS.

Few people realize the extent to which the United States Government distributes its publications free, although a large number have been placed on a sales basis. During the past year 34,714,186 copies of Government publications have been mailed by this office on mailing lists and miscellaneous orders of the departments.

We now have 1,068 stenciled mailing lists containing 765,920 names and the maintaining of these mailing lists entails considerable work, as will be seen by a glance at the records which show that during the last year 222,995 names were added and 229,782 dropped. The number of impressions made during the year was about 23,000,000. The greatest care has to be exercised in handling these lists to prevent erroneous distribution.

We have been greatly assisted in increasing the efficiency of this branch of our work by the willingness of the departments to cooperate with us. The delay that might result from the transmission of orders from the departments to this office for filling has been greatly reduced by the installation of the tube system connecting our mailing room with the post office, which allows for the dispatch of mails at all hours during the day.

#### ACCUMULATION OF PUBLICATIONS.

During the past year considerable progress has been made in disposing of the accumulation of returned publications. In my last report there were estimated about 500,000 unassorted on hand, and during the past fiscal year over 500,000 more have been received. Of this lot, thousands of copies have been taken for stock and the balance of 1,506,274, which represented excess stock and obsolete

publications, were listed for selection by Members of Congress. Only about 20 per cent of the Members availed themselves of the privilege of selection. The handling of this great number of old documents preparatory for distribution has been done without an increase of the force of the office.

The greatest care is exercised in the assortment of these old publications and none are listed for condemnation if they are of any value, or when the number in stock is insufficient for what is considered a possible future demand. It is this careful examination which is made in the assorting of these old publications that makes it slow and tedious work, but as the law requires the libraries and departments to turn over to this office publications which are no longer needed, I feel there is an implied duty on our part to preserve for the future sufficient copies of those that have not become obsolete.

The warehouse and basement of the annex have been cleared of several hundred thousands of these old books, making available considerable space, and within the next six months the congested condition resulting from this tremendous accumulation will be greatly relieved.

#### STORAGE ROOM.

Our storage space available both for the stock of this office and that of the departments is limited, requiring a constant review of stock on hand for the purpose of separating those publications for which there is no demand or that have become obsolete.

We are continually bringing to the attention of the departments certain of their publications which we believe should be eliminated from stock, and although some of the departments seem willing to accept our suggestions, there are others that are reluctant to dispose of any of their publications by having them condemned and sold as waste paper.

In my efforts to prevent our stock room from becoming congested it is not my purpose to force the departments to make a distribution of any of their publications, but I desire to have them see that it is not in the interest of economy or good administration that old publications for which the demand has ceased should be indefinitely stored and occupy space that could be utilized to better advantage in handling the active and current work.

Section 67 of the printing act of 1895 provides the necessary authority for the departments to turn over to this office their excess publications, but since the question of storage is no longer of any concern to the departments, suggestions relative to such action must necessarily emanate from this office.

#### CONDITION OF THE OFFICE.

I desire to gratefully bear testimony to the fact that whatever has been accomplished in the management and handling of the increasing large business of the office since I took charge thereof on December 1, 1913, is due in no slight degree to the uniform kindness and helpful supervision of the Public Printer.

By your confidence, I have practically been allowed the general management of the office and by your approval and suggestions have been able to reorganize the office and institute many new methods of business which brought out the greater efficiency and more har-

monious cooperation of the force, resulting in the marked increase of business, as per the following statement:

	1914	1915	Increase.	Percent- age.
Letters.....	229,356	256,409	27,053	12
Cash receipts.....	\$140,735.57	\$155,092.30	\$14,356.73	11
Publications received.....	3,635,818	5,746,069	2,110,251	58
Publications distributed.....	3,274,188	5,530,899	2,256,701	69

The estimate for 1917 appropriation is less than for previous years.

The office is to-day in close touch with the departments and bureaus with a better understanding than in the past.

With my personal supervision of all complaints and special inquiries and keeping in close touch with the different sections, much of the friction heretofore existing between the general public and other patrons has been removed, and now with Members of Congress and practically all parties concerned and interested in the business of the office, the most pleasant relations exist.

I am pleased to report that the office is now in a good and efficient working condition, due to the earnest and faithful cooperation of the chiefs and employees, all of whom have uniformly taken deep and active interest in the building up of the office to the highest possible standard, that it may meet the requirements for which it was established.

They are all worthy of praise and are entitled to and have my most hearty thanks, and I assure them of my profoundest appreciation of their fidelity and promptness in all that appertains to their several positions and duties.

Respectfully submitted.

JOSIAH H. BRINKER,  
*Superintendent of Documents.*

HON. CORNELIUS FORD,  
*Public Printer.*

Statement showing number of departmental publications.....	13
Library statistical statement.....	14
Itemized statement of sales for fiscal year.....	15

# **TWENTY-SECOND ANNUAL REPORT OF THE SUPERINTENDENT OF DOCUMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 1916.**

**GOVERNMENT PRINTING OFFICE,  
OFFICE OF SUPERINTENDENT OF DOCUMENTS,  
*Washington, September 28, 1916.***

SIR: In compliance with the provisions of section 61 of the general printing act approved January 12, 1895, I have the honor to submit the Twenty-second Annual Report of the Superintendent of Documents, being for the fiscal year ended June 30, 1916.

The business of the office continues to make rapid strides and to demonstrate that the general public is becoming more interested in Government publications, as has been pointed out in my previous reports, as well as what is shown by this one. The following shows the increase in the business of this office since 1913:

Letters received during the fiscal year 1913.....	174, 092
Letters received during the fiscal year 1916.....	304, 341
Increase of letters, 130,249, or 75 per cent.	
Cash sales during the fiscal year 1913.....	\$109, 114. 38
Cash sales during the fiscal year 1916.....	\$185, 712. 01
Increase of \$76, 597. 63, or 70 per cent.	
Publications distributed during the fiscal year 1913.....	29, 488, 581
Publications distributed during the fiscal year 1916.....	47, 157, 861
Increase of 17,669,280, or 60 per cent.	

The following statement will evidence the great volume of work done during the past fiscal year:

Letters handled.....	304, 341=daily average of 972.
Cash receipts.....	\$195, 507. 79=daily average of \$624. 62.
Publications distributed.....	47, 157, 861=daily average of 150,664.

The foregoing tells the story of the busiest year in the history of the office, and it is gratifying to note that while the increase in the free distribution for the departments during the past year is only 6 per cent, there is an increase of 63 per cent in publications sold. This substantiates the position advocated all along as to the best method of distributing public documents for the greatest good—that is, by sale at a nominal cost, so as to bring the expense within moderate means, and to afford the opportunity to every American citizen to obtain Government publications.

The following table, showing the sales by this office of publications issued by the various departments, is further evidence of the popularity of the plan for less free distribution and greater sale distribution, and I trust will serve to stimulate coordinate branches to vie with each other to assist in placing more publications on a sales basis.

	Publications.	Amount.
Agriculture.....	316,939	\$22 277.84
Civil Service Commission.....	13	3.55
Commerce.....	3,370,916	44,271.78
Congress.....	139,146	9,975.21
District of Columbia.....	358	276.80
Federal Reserve Board.....	186	11.60
Federal Trade Commission.....	12,446	617.43
Geographic Board.....	24	2.40
Government Printing Office.....	7,327	862.13
Interior.....	381,099	41,635.39
Interstate Commerce Commission.....	705,962	21,531.41
Justice.....	1,247	426.00
Labor.....	11,974	1,049.85
Library of Congress.....	20,901	1,566.43
National Academy of Science.....	49	54.35
Navy.....	26,486	10,105.44
Pan American Union.....	308	77.50
Post Office.....	5,697	849.50
President of United States.....	285	35.75
Smithsonian.....	2,412	1,762.20
State.....	12,260	5,573.80
Treasury.....	231,854	9,291.33
War.....	50,493	13,354.32
Total.....	5,298,380	185 712.01

#### THE COUPON SYSTEM.

The coupon system continues favorably to meet the wants of the people as a simple, convenient, and safe means for doing business with the Office of Superintendent of Documents; this is shown by the many complimentary letters that have been received from individuals, business and professional firms.

The number of coupons handled during the fiscal year 1916 were 69,471 issued and 55,041 redeemed.

#### LIBRARIES.

To meet the growing demands of the public for governmental literature, it is suggested that the nondepository libraries throughout the country should be supplied more freely with current publications. The law now provides that departmental publications shall be distributed by the issuing offices, and that this office can only distribute the surplus copies that come into its hands from the various departments and other sources.

Below is a comparative statement of library distribution for the fiscal years 1915 and 1916:

Distributed to 482 designated depositories in 1915.....	1,335,991
Distributed to 484 designated depositories in 1916.....	1,627,405
Increase of 291,414.	
Distributed to 725 geological depositories in 1915.....	25,339
Distributed to 725 geological depositories in 1916.....	31,809
Increase of 6,470.	
Distributed to 2,321 Official Gazette depositories in 1915.....	191,724
Distributed to 2,304 Official Gazette depositories in 1916.....	185,322
Decrease of 6,402.	
Distributed to various nondepository libraries in 1915.....	27,943
Distributed to various nondepository libraries in 1916.....	43,114
Increase of 15,171.	

The designated depository libraries receive one copy of every publication printed. The geological depository libraries receive only

special publications issued by the Geological Survey. The Official Gazette depository libraries receive the weekly Gazettes and Indexes. The nondepository libraries are entitled to receive on application any surplus copies in stock for free distribution.

#### CATALOGUES, INDEXES, ETC.

The following publications have been compiled and issued during the fiscal year ended June 30, 1916: Document Catalogue, Sixty-second Congress, 1911-1913; Document Index No. 21, Sixty-third Congress, Second Session, December 1, 1913-October 24, 1914; Fourteenth Preliminary Schedule of Volumes, Reports and Documents of the Sixty-third Congress, Third Session, December 7, 1914-March 4, 1915; Document Index No. 22, Sixty-third Congress, Third Session, December 7, 1914-March 4, 1915; Monthly Catalogue and Index, July, 1915-June, 1916.

Forty-three price lists of United States Government publications on various subjects for sale by this office have been compiled, totaling 298,000 copies, and 283,503 copies have been distributed, as compared with 274,915 copies distributed during the fiscal year 1915.

#### DISTRIBUTION OF DEPARTMENTAL PUBLICATIONS.

The number of publications that are distributed free by the departments is extremely large, notwithstanding the fact that an increased number have been placed on the sales basis. During the fiscal year 1916, 47,157,861 copies of Government publications were mailed by this office on mailing lists and orders, for which we have 1,103 stenciled mailing key lists, containing 850,000 names. The handling of these lists required 33,000,000 impressions, and the adding of 274,611 names and dropping of 142,444.

#### ACCUMULATION OF PUBLICATIONS.

During the past year we have disposed of the accumulated publications referred to in my last report (1,506,274) and others of a similar character (816,793). We receive many sacks of old publications daily from libraries and departments, turned over to this office under the provisions of law, many of which are not needed for stock; therefore there is a continued accumulation of publications which necessarily requires a force to separate and assort them preparatory to final disposition.

#### STORAGE ROOM.

Our storage space for office work, stock of the office, and of the departments is limited, requiring constant effort to provide necessary room. Therefore I would ask your early consideration of this matter and the arranging for additional required space.

#### MACHINERY.

We have an Automatic Mailing Machine that does not do satisfactory work, also seven Automatic Rapid Addressing Machines No. 1, three Hand-feed Addressing Machines No. 3, and eight Stencil Cutting

Machines. Some of these are secondhand, turned over to this office by the departments when the transfer of publications for mailing was made under the provision of law, and others have been in use for some years.

Now, in view of the fact that we handle 47,000,000 publications annually, and for a part of this number we maintain a mailing list for the various departments of 850,000 names, which required during the past fiscal year 33,000,000 impressions, it is suggested that the office be equipped with the best and latest improved machines. Therefore I urgently recommend that the subject of machinery be considered, and prompt action be taken in regard to substituting, so far as may be necessary, new machines for the old ones.

#### CONDITIONS AND RECOMMENDATIONS.

The year has been one of continued activity and increase of the business of the office, as is shown by this and former reports, and the best evidence of the increased importance that it is assuming in the minds of the public is the steady and remarkable growth of the business transacted. The general public is using the sales system more than ever, for a quick and more businesslike method of acquiring publications. The transaction of such a volume of business has called for the best resources and efficiency of the force, for it will be remembered that since the addition of 14 employees to the personnel in 1914 no increase has been provided for until in the estimate for the coming fiscal year, in which 6 new employees and a few promotions (amounting in all to only \$6,680) are asked for to meet the present needs and prospective increase in the business for the fiscal year 1918 and to maintain efficient service to continue the high standard that has been built up.

To epitomize, a very large and rather complicated business has been carried on between this office and Members of Congress, the general public, and the Executive departments, and the utmost friendly and interested relations have existed. The sales have been much increased by the activities and cooperation of a number of magazines and newspapers that have opened up service departments for furnishing their patrons with up-to-date information of what Uncle Sam is doing for them.

I wish to extend my thanks to the employees of this office for the interest and conscientious efforts shown by them in the work.

Respectfully submitted.

JOSIAH H. BRINKER,  
*Superintendent of Documents.*

HON. CORNELIUS FORD,  
*Public Printer.*
